

# MINORS & HEALTH CARE LAW

*A handbook on consent for treatment of infants, children & adolescents*

Providers frequently seek consent from divorced parents, stepparents, foster parents, grandparents or other adults — but who can legally provide consent for treatment of a minor? When can a minor consent to his or her own care? Can a doctor inform parents of treatment without the minor’s consent?

Learn how state and federal laws apply to medical treatment of children and adolescents with *Minors & Health Care Law*. Key issues covered include:

- Minors’ rights
- Emergency treatment
- Reproductive care and abortion
- Sexual assault treatment and reporting
- Drug and alcohol treatment
- Newborn abandonment
- Psychiatric health care
- Confidentiality and access to medical records
- Child abuse reporting

The manual contains more than 25 useful forms including a health questionnaire, which meets the requirements of California’s newborn abandonment law. Purchase also includes a free quick reference guide — Consent Requirements for Medical Treatment of Minors.

*Minors & Health Care Law* is a must-have for hospitals, clinics, physicians, child protective agencies, schools and all who work with infants, children and adolescents.

*190 pages (Sixth Edition, January 2004)*
